

Grade settings

General settings

When working with courses, programs or certifications you can configure how grading works on your site. You can amend the [general grading settings](#), such as:

- Which roles can have worked graded
- How grades can be exported
- How aggregated grades are shown in the gradebook
- Navigation settings for the gradebook
- Set maximum and minimum grades, or allow unlimited grades

Grade item settings

Additionally you can change the [settings of individual grade items](#) found within the gradebook, such as quiz or assignment scores.

For each grade item you can set the following:

- Item name, ID and description
- Grade type
- Whether grade items are hidden or locked
- Weighting
- Minimum and maximum grades
- Required pass grade
- How many decimal points are included
