

Page

A page resource creates a link to a page that displays the content created by a user with sufficient permissions. The robust text editor allows the page to display many different kinds of content such as plain text, images, audio, video, embedded code, or a combination of all of these.

To compose a page:

1. Click the **Turn editing on** button.
2. Click **Page** from the 'Add a resource...' drop-down menu.
3. Enter a name for the page.
4. Write a summary if required.
5. Create your web page using the HTML editor.
6. Set the **Options**. The available options depend on the site settings.
7. Complete **Common Module settings** if required.
8. Complete **Restrict Access** if required.
9. Complete **Activity Completion** if required.
10. Click **Save changes**.
