

Grading

Grading can form an important part of assessing a Learner's progress and skill set. Simply put, grades indicate how well a Learner has performed on a particular activity or course.

In this section you can learn about how to set up [grading settings](#) in Totara Learn, [grade courses](#), [access grades](#), and how to set up [grade categories](#) to organise grade items in the gradebook.

In the [calculating grades](#) section you can read more about how to configure [grade aggregation](#) and [weighting activity grades](#).

You can find out about different grading methods such as [manual grading](#), grading [using a rubric](#), and [advanced grading methods](#).

Furthermore you can learn about the different types of [grade reports](#) available in Totara Learn, including the [grade history report](#), [grade overview report](#), [grade report](#) and [single view report](#).

Totara Academy

The Totara Academy has a whole course dedicated to using [Grading, completion and certificates](#) in Totara Learn. Here you can learn more on how to use these tools, see best practice, and give it a go yourself.
